📍 Ogun, Nigeria

SUMMARY

Passionate Software Engineer with 3+ years of experience in developing web applications and backend systems. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working with both small and large teams across multiple projects and companies. Able to work independently of remote locations or in office environments as needed by the company.

PROFESSIONAL EXPERIENCE

Software Engineer   2023 - Present
Yulav.io   Remote, Nigeria

- Collaborated with cross-functional teams to design, develop, and maintain features for our LMS platform.
- Using industry best practises, I produced code that was clear, effective, and well-documented.
- Implement new functionalities and enhancements based on user feedback and market trends.

Software Engineer   2020 - 2023
STAK Group   Ogun, NG

- Designed and developed reusable software components which used in 3 different project with reducing development effort by 50%
- Re-engineered critical modules within a sprint to rely on a centralized library to optimize performance
- Rated with the best annual performance rating for all the years during my stint; given to top ~5% employees

PROJECTS

AI Proctored Exam   2021
Location

I built an AI proctored exam system using Python Machine Learning Libraries like OpenCV and TensorFlow

- The only restraint i had was deploying to a cloud service which i couldn't get fund for

Form Builder   2023
Nigeria

The form builder allows us to create survey form and share with our friends

- The form builder allows me to prove my proficiency in building Drag And Drop Application

ACHIEVEMENTS

Contribution to Open Source Project
Why are you proud of this achievement?

Chatbot implementation
Developed a chatbot which helped customer to reduce costs by 240% in their customer service department
